2' x 2' x 4'  
(60cm x 60cm x 120cm)

2' x 2' x 2'  
(60cm x 60cm x 60cm)

# GRANI-BLOC™

The GRANI-BLOC™ line, our landscaping solution that is decorative, structural, durable and affordable.

## DECORATIVE

Quarry stone imitation design while maintaining the practical properties and size of standard concrete blocks.

## STRUCTURAL

Interlocking configuration holds blocks in shape and prevents movement.

## DURABLE

The concrete composition used in the blocks is designed to withstand the effects of the climate in Quebec and Canada.

## AFFORDABLE

Ideal for commercial and residential landscaping, and for small-scale retaining walls.

## BLOCK TYPES

### INTERLOCKING

The interlocking system makes installation simple and efficient, perfectly aligning the blocks and preventing movement caused by freezing and soil arching. The symmetrical design also means that 2 blocks can be joined perpendicularly.

### FLAT

The blocks also come in a flat version, without an interlocking system.

### RECESSED

The top of the block is recessed 5" (12.5cm) to limit the visible portion of the top of the block for a more custom application:

- › Edging for grass
- › Flowerbed
- › Concrete pavers
- › Asphalt
